**CERTIFIED
TRAINING**

WE GET CREWS READY.

TRAINING FROM THE UNDERGROUND CONSTRUCTION EXPERTS

“New” operators? No problem. Ask your Ditch Witch® dealer what the best training program in the industry can do for your crews. It’s flexible, with instruction available on the jobsite, in the classroom, on the simulator, on the equipment, as well as **free** online HDD and vacuum excavation courses. It’s invaluable: with years of experience packed into easy-to-understand lessons,

and it’s exclusively Ditch Witch—nobody offers this level of training with so many choices. We make the equipment and the parts, so we have the inside knowledge needed to run them like no one else. With Ditch Witch Certified Training, we’ll share that knowledge so your crews can be faster, more efficient, more productive, and safer on the jobsite. What are you waiting for? Contact your Ditch Witch dealer now.

ONLINE TRAINING

Ditch Witch offers the only free online HDD and Vac Training program, which packs decades of underground construction knowledge into easy to understand courses. HDD topics include: **HDD Overview, Best Practices, Drill Pipe, Tracking, HDD Tooling and Drilling Fluid.** Vac Training topics include: **Vacuum Excavator Operational Overview, Tooling and Advanced Controls in Everyday Operation.** After completing all the courses, you will receive a certificate of completion.

IN THE CLASSROOM

Instructor-led operator training courses cover everything your crew needs to be safe and productive. The comprehensive curriculum utilizes a classroom setting over several days to give your crew the foundation to HDD and vacuum excavation operation and jobsite management. Your equipment investment pays greater dividends when it is put to skillful use by your best operators.

ON THE EQUIPMENT

Many of our Ditch Witch dealer locations provide simulated jobsites to allow hands-on equipment experience. This allows operators to further their drilling, vacuum excavation and tracking skills using an actual machine in a controlled environment.

ON THE SIMULATOR

HDD simulator training provides an opportunity for new operators to gain familiarization and understanding of machine controls to learn proper operating procedures. Experienced operators can benefit by refining skills to increase productivity levels. Contact your dealer to set up a simulator training session.

VR HDD SIMULATOR

Ditch Witch is bringing training into a new era with virtual reality. Our VR HDD simulator is the latest frontier, giving operators an immersive, interactive experience to learn real world HDD solutions. Now available at participating Ditch Witch dealerships.

ON THE JOBSITE

When your crew is ready for exposure to real-world project conditions, your local Ditch Witch dealer will work with your crew on an actual jobsite to analyze and recommend site-specific solutions aimed at improving production, lowering cost and enhancing safety.

WE'RE IN THIS TOGETHER

We want you and your crews to be able to tackle any jobsite with confidence. No matter what challenges you face, we're here to help you be successful. We'll even customize a training program depending on your specific needs. Be faster, more efficient, more productive and safer on any jobsite. Simply ask your Ditch Witch® dealer how you can take advantage of the best HDD and vacuum excavation training programs in the world.
